Winter 2014– 2015

Seasonal Site Closings

Several conservation areas will be closed for the season beginning on November 14th. The seasonal closures will include sites that receive the lowest use. Circumstances prevent the District from keeping all of its sites open throughout the year. We apologize for any inconvenience this may cause our patrons.

The most heavily used sites will remain open throughout the late fall and winter season with the exception of closures associated with the district’s archery program – (please check the district website for information about those dates).

The following sites will remain OPEN after November 14th except when posted as closed for hunting:

- * Spencer Conservation Area Gustafson Nature Center
- * LIB Conservation Area Ipsen Road Conservation Area
- * Beaver Bluffs Conservation Area Distillery Road Conservation Area

All other BCCD sites will be closed for the season. Again, we apologize for any inconvenience this may cause.

Prescribed Fire Season

Conservation District land management staff will be conducting prescribed burns at several of our conservation areas in the early spring of 2015. Prescribed fire is an essential and efficient management practice for the health of our native ecosystems, including prairies, savannas, and woodlands. Fire helps return nutrients to the soil, helps control undesirable exotic weeds and shrubs, increases blooming and seed production among our native plants, and stimulates the growth of our native prairie and woodland plant species. District staff manage the burns to minimize smoke on highways and neighboring properties.

Black Bears— Dispelling the Myths for Peaceful Coexistence

Did you know that black bears are basically shy animals?

Did you know that myths and misconceptions are the biggest problems that black bears face?

Are you looking for a knowledgeable speaker for your next meeting or other educational event?

The North American Bear Center’s Educational Outreach Program, in conjunction with the Wildlife Research Institute, has established a Speakers Bureau nationwide. The speakers’ training reflects their knowledge of black bears, and their focus is on the scientific information that biologist gather through field research in Ely, Minnesota.

We are proud to announce that Tina Dawson Scott, BCCD Educator is trained as an Education Outreach Speaker. To schedule an educational presentation, contact Tina Dawson Scott at 815-547-7935 or tdawson@bccdil.org

The District sells bird seed all year long. Our prices are as follows:

- 50# BCCD Mix—\$25.00
- 50# Striped Sunflower—\$32.00
- 50# Oil Sunflower—\$32.00
- 50# Safflower—\$32.00

- 5# Oil Sunflower—\$5.00
- 5# Striped Sunflower—\$5.00
- 5# Safflower—\$5.00
- 5# BCCD Mix—\$3.00

If you can't decide which seed to offer, the black oil sunflower is high in ener-

gy and has thin shells, making it the preferred food item for a wide variety of birds. Black-oil sunflower is among the favorite feeder foods of cardinals, chickadees, finches and sparrow. Woodpeckers even consume these seeds on occasion.
